# ELECTRONIC DATA TAG

NEXT GENERATION  
PRODUCT  
AUTHENICATION

## WHAT IS CSC DATA COM?

The CSC DATA COM tag is a technology standard-based tag that can transmit information wirelessly with ease. You will instantly receive product information by simply scanning your phone over the tag. The tag also allows for data to be update and changed with ease.

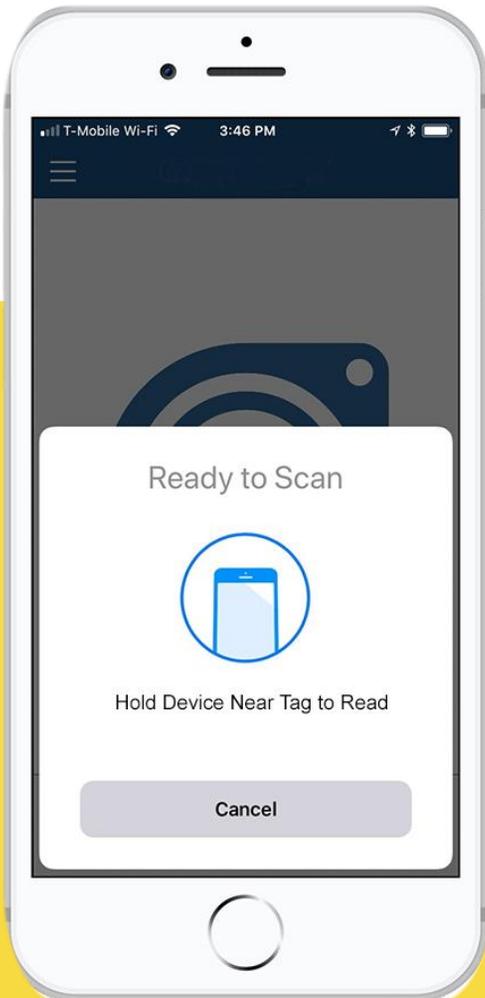

### SIZING & SPECS

CSC DATA COM tags come in the form of a sticker that compares to the size of a US Quarter. While their appearance may seem unimpressive, their power comes from simplicity. This means they can be used in places that other technologies can't. Each sticker is made up of two components that work together to form a functional device.

From a user standpoint the CSC DATA COM tag works like magic. To interact, a user simply brings their phone within range of a tag, and is instantly presented with the corresponding content. This tag and its technology will easily work with devices from iPhone to Android.

- SAFE AND SECURE PRODUCT AUTHENTICATION
